### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,3,4,5,6,8,10,11 are rejected under 35 U.S.C. 102(b) as being anticipated by Haynes (US 4234046).

Haynes discloses a seabed anchor comprising a caisson having a top wall and a lower portion substantially free of obstruction (see Fig. 2). The fluid connection is considered to be the opening (62) depicted in Figure 2. Suction is provided (see col. 3 line 4+). Means for retaining seabed soil (member 20).

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 15, 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Haynes '046 in view of Haynes '721.

Art Unit: 3673

Haynes '046 discloses the invention substantially as claimed. However, Haynes '046 is silent about including a gravity base having a plurality of caissons. Haynes '721 teaches a gravity base having a plurality of caissons (see Fig. 3). It would have been considered obvious to one of ordinary skill in the art to modify Haynes '046 to include a gravity base as taught by Haynes '721 in order to provide support for appropriate offshore structure.

### ***Response to Arguments***

5. Applicant's arguments with respect to claims 1,8,15,16 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sunil Singh whose telephone number is (571) 272-7051. The examiner can normally be reached on Monday through Friday 10:30 AM - 7:00 PM.
